

# Peikko Designer® DELTABEAM SELECT

Get beam  
dimensions in  
5 minutes!

START DESIGNING NOW  
WITH DELTABEAM SELECT

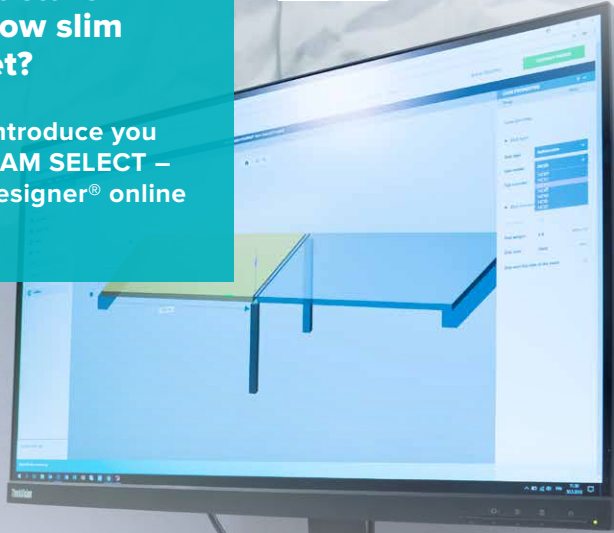

A free online dimensioning  
tool for easy and fast  
slim floor structure predesign

## Can I use DELTABEAM® Slim Floor Structure in my project? How slim floors can I get?

We are proud to introduce you with the DELTABEAM SELECT – the new Peikko Designer® online module.

For more information on DELTABEAM SELECT visit [www.peikkodesigner.com/deltabeamselect](http://www.peikkodesigner.com/deltabeamselect)

” Being web-based, you don’t have to download updates.

Peikko’s DELTABEAM® Slim Floor Structure allows you to build open spaces – even with architecturally demanding shapes. DELTABEAM® is a superior composite beam enabling slim-floors for multi-story buildings of any type.

Compatible with precast and cast-in-situ slabs as well as any type of columns, DELTABEAM® makes your construction process faster and more efficient.

The final beam design and individual beam dimensioning is always done by Peikko.

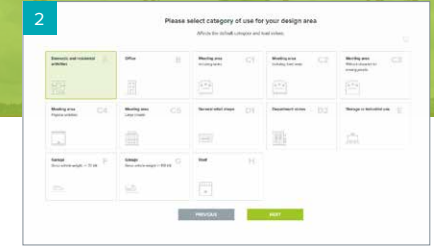

” Very straightforward with fast dimensioning.

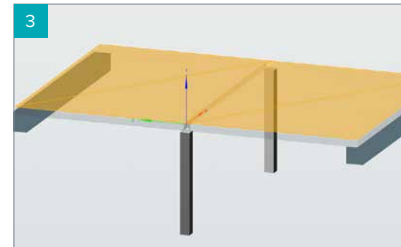

## Get beam dimensions in 5 minutes!

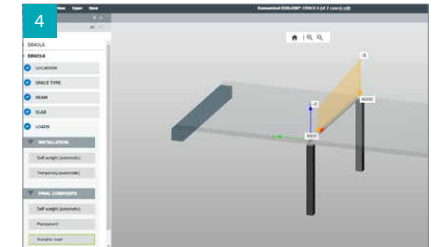

1. Set the project location

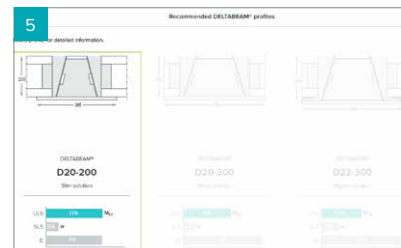

2. Choose the building type for predetermined loads

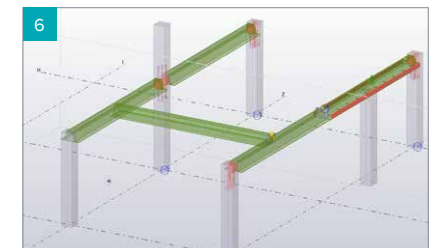

3. Define the beam length and choose slab types and spans

4. Define area, line or point loads and click calculate

5. Choose one of the three profiles

6. Add DELTABEAM® to your plans

## EXPERT ADVICE LOCALLY AVAILABLE

Peikko offers expert advice during both design and construction of slim floor structures, making the use of DELTABEAM® as easy as possible.
