**Exchanging SBKL Anchor Plates with WELDA® Anchor Plates**

When calculated according to Peikko's design concept, the SBKL can be generally exchanged to a WELDA® Anchor Plate of the same size as per the enclosed table.

SBKL to exchange		Corresponding WELDA®
<b>SBKL50x100</b>	→	WELDA® 50x100-68
<b>SBKL100x100</b>	→	WELDA® 100x100-68
<b>SBKL100x150</b>	→	WELDA® 100x150-70
<b>SBKL150x150</b>	→	WELDA® 150x150-162
<b>SBKL100x200</b>	→	WELDA® 100x200-162
<b>SBKL200x200</b>	→	WELDA® 200x200-162
<b>SBKL250x250</b>	→	WELDA® 250x250-165
<b>SBKL100x300</b>	→	WELDA® 100x300-165
<b>SBKL200x300</b>	→	WELDA® 200x300-165
<b>SBKL300x300</b>	→	WELDA® 300x300-165

For details on the design concept of WELDA® Anchor Plates and the parameters used in calculation, please see the Technical Manual of WELDA® and WELDA® Strong Anchor Plates. Before exchanging an anchor plate, Peikko recommends you to review the design concept in more detail and in case of doubt about the exchange to contact the structural designer of the site.

Peikko is not responsible for any direct or indirect costs or damages arising from the exchange when an SBKL Anchor Plate is exchanged to a WELDA® Anchor Plate and an external designer has been in charge of designing and exchanging the anchor plate.
